DORIAN GUZMAN

AI Transformation & Value Creation · Founder & Operator

Freiburg, Germany

dorianeguzman@gmail.com | +49 157 39511230 | linkedin.com/in/dorianguzmanrazo | dorianguzman.github.io

PROFESSIONAL SUMMARY

Founder and operator who takes AI from strategy to production and owns the commercial result. Co-founder of an AI transformation consultancy serving private equity, covering the full path from opportunity assessment and roadmap through business case to systems running in production. Has built startups from the inside as founder, product lead, and head of data science at a Y Combinator company, growing one platform from zero to 100+ accounts. Combines an MBA from the University of St. Gallen (corporate finance, strategy) with a PhD candidacy in Data Science (optimization) and live trading and risk management experience, bringing the technical depth to judge whether a technology is real and the business judgment to decide whether it is worth funding.

PROFESSIONAL EXPERIENCE

NXT Partners AI *April 2026 – Present*

Co-Founder

New York, United States - Remote

- Co-founded an AI transformation and strategy consultancy focused on the private equity sector, delivering end to end from AI roadmap and business case through to implementation in production
- Advise managers, directors, and C-level executives at companies new to AI on where it creates value and how workflows must change, then embed with their teams to deliver their first production-grade solutions
- Own the full commercial cycle from outbound prospecting and executive-level discovery through negotiation and close, securing the firm's first enterprise clients at an average deal size of $140K
- Architected and deployed multi-agent AI systems across finance, energy, media, and regulatory verticals, delivering autonomous workflows producing 100+ assets per week

QStarlabs.ai *April 2025 – April 2026*

Lead Product Engineer

New York, United States - Remote

- Co-led business development and technical strategy for Personas, an enterprise AI agent platform, growing the customer base from zero to 100+ accounts
- Built the go-to-market motion from scratch while shipping the production agentic systems behind the product

Deep Q Digital *November 2023 – April 2026*

Quantitative Researcher

New York, United States - Remote

- Built quantitative trading infrastructure and executed live high-frequency operations across crypto and DeFi markets, covering risk management, P&L tracking, and backtesting

SmartHelio (YC W22) *May 2021 – April 2023*

Head of Data Science (promoted from Data Scientist)

Lausanne, Vaud, Switzerland

- Led the international data science team as Product Owner at a Y Combinator-backed startup, defining data strategy and managing the product roadmap across Europe and Asia
- Built ML fault detection and digital twin algorithms, and presented the company's solutions to international customers, translating technical capabilities into business value

Fraunhofer Institute for Solar Energy Systems ISE *February 2017 – February 2021*

Project Manager & Data Scientist

Freiburg, Germany

- Advised international clients on solar energy topics such as PV forecasting, performance analysis, and system design

EDUCATION

University of St. Gallen (HSG) *August 2022 – August 2024*

Master of Business Administration (MBA)

St. Gallen, Switzerland

- Focus: corporate finance, strategy, leadership · Thesis: "Risk Management for DeFi Liquidity Provisioning"

University of Freiburg *February 2018 – Present*

PhD Candidate, Data Science (Thesis submitted 2025, defense pending)

Freiburg, Germany · In collaboration with Fraunhofer ISE

- Focus: Time-series PV power forecasting, optimization algorithms, digital twinning for solar energy systems

EIT InnoEnergy PhD School *April 2018 – March 2021*

PhD Candidate – Energy Economics, Smart Grids, Managing Innovation & Entrepreneurship · Guest PhD, DTU (2019)

Technische Universität Berlin, Germany *2013 – 2016*

Master of Science, Global Production Engineering – Solar and Wind Energy Technologies

Tecnológico de Monterrey (ITESM), Mexico *2006 – 2010*

Bachelor of Science, Mechatronics
